INTERNSHIPS

Business Analyst Intern, Rojgaar.co, Hyderabad (Remote) | Dec 2025 – June 2026

- Gathered and documented business requirements from multiple stakeholders, analyzed recruitment and operational data using Excel (Pivot Tables, VLOOKUP), and identified hiring trends across 10+ job categories to support business process improvements.
- Developed 2 Power BI dashboards to track user engagement and key business KPIs, performed trend analysis, and generated actionable insights to support performance reviews and strategic decision-making.

Associate L1 – Data Analytics Intern, Infotact Solutions, Hyderabad (Remote) | Feb 2026 – May 2026

- Designed and developed 3+ interactive Power BI dashboards tracking 8 KPIs using DAX, Power Query, and SQL, analyzing 10,000+ records to improve reporting accuracy and support data-driven business insights.
- Performed data validation, Excel-based reporting, and trend analysis to identify inconsistencies, improve reporting efficiency, and support cross-functional teams in business performance monitoring and decision-making.

PROJECTS

Mobile Sales Analytics Dashboard | Power BI, DAX, Power Query, Excel | 2025 | [Project](#)

- Built an end-to-end Power BI dashboard analyzing 5,000+ sales records across 10 cities using DAX and Power Query for data modeling and transformation, identifying that 3 cities contributed 60% of revenue and 2 categories drove 70% of transactions.
- Visualized 6 KPIs including sales, MoM growth, and customer metrics with drill-through filters, replacing 4 static Excel reports with a dynamic dashboard and reducing manual analysis time.

Omnichannel Retail Sales & Inventory Dashboard | Power BI, MySQL, Python, Excel | 2026 | [Project](#)

- Led a 3-member team to design and deliver a 2-page Power BI dashboard analyzing 67K+ retail orders worth ₹1,498.3M across 10 cities and 5 channels, using 10+ MySQL queries and Python (Pandas) for data extraction, cleaning, and KPI reporting.
- Identified key insights including Electronics contributing ₹934M (62% revenue) and Kolkata as the top city (₹291M), and built DAX-based time analysis with interactive slicers, enabling data-driven business recommendations.

Chronic Kidney Disease (CKD) Prediction & Healthcare Analytics Dashboard | Power BI, Python, Machine Learning, Excel
| 2026 | [Project](#)

- Developed an end-to-end healthcare analytics solution using Python, Machine Learning, and Power BI to analyze 400+ patient records and 26 medical features, performing data cleaning, EDA, and predictive modeling to support early disease detection and healthcare decision-making.
- Built an interactive Power BI dashboard with KPI tracking, biomarker analysis, and patient risk insights, while evaluating Random Forest and Logistic Regression models using Accuracy, Precision, Recall, F1-score, and ROC-AUC to generate data-driven insights.
